

Keith and Jani

Points of Transformation Awards Ceremony (above)

Keith and Jani

Jani Morris, Supports Coordinator and Points of Transformation Award recipient, came into Keith's life a few years ago. Keith shared with Jani that he was feeling lonely and sad because he missed his brother, Bruce. Bruce had become ill and required the supports of a nursing home. As a result, Keith was unable to find him. Keith also shared with Jani his interests in music and sports. Jani began to explore ways to offer him activities in hope of easing his sadness. She always remembered him when Partnership received free tickets to community activities and sporting events. Keith loved getting free tickets and going places! He went to boxing events, basketball games and football games. These events eased the void in Keith's life and he began to talk more and laugh.

Jani found a day program which provided music, games and trips. Keith is very happy and grateful for the change in his life. Jani, however, realized that although Keith was happier, he still missed his brother. So she decided to try and find Bruce. She found a connection and was able to reunite Keith with his brother. This reunion has truly enhanced the lives of both brothers and it has brought a family together again. Keith is truly happy now!
